DETAILED ACTION

1. Claims 35-103 are pending. Claims 35-52 and 72-102 have been withdrawn in response to the Election/Restriction requirement filed 12/15/06 and the Miscellaneous Communication to Applicant of 11/13/06. Group 4, Claims 52-71 and 103 will be examined. This election is without traverse.

2. The Change in Power of Attorney filed 12/11/06 has been entered.

Specification

3. The Specification is objected to because on page 1 the "CROSS-REFERENCES TO RELATED APPLICATIONS" section should recite U.S. Provisional Patent Application Serial No. 60/116,016, Li-Wen Chen entitled, "METHOD AND APPARATUS FOR PROCESSING CUSTOMER DATA FOR OLAP INTEGRATION AND APPLICATION INTEGRATION BASED ON REVERSE STAR SCHEMA," filed January 15, 1999.

The following commonly-owned co-pending applications, including this one, are being filed concurrently and the others are hereby incorporated by reference in their entirety for all purposes:

- 1. U.S. Patent Application Serial No. 09/483,385, Li-Wen Chen entitled, "METHOD FOR VISUALIZING INFORMATION IN A DATA WAREHOUSING ENVIRONMENT," pending; and
- 2. U.S. Patent Application Serial No. 09/483,386, Li-Wen Chen entitled, "SYSTEM FOR VISUALIZING INFORMATION IN A DATA WAREHOUSING ENVIRONMENT," issued as U.S. Patent No. 7,007,029 and any other applications that may need to be added.

Correction is required. See MPEP § 608.01(b).

Claim Objections

4. Claim 53 is objected to because of the following informalities: Claim 52, line 7 in the body of the claim recites "core component". This line would be better recited as

"core components". Claim 103, line 7 in the body of the claim has a similar problem. Appropriate correction is required.

Claim Rejections - 35 USC § 112

- 5. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 6. Claims 53, 71, and 103 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 53 and 71 contain a clause of intended use in the independent claims which renders the claims indefinite. Specifically, claim 53 after the third claim limitation on page 6, recites "wherein the focal group and the customized group comprise ...". This claim limitation would be better recited as ";and at least the focal group and the customized group comprise a reverse star schema meta model" or "... activity components, wherein the focal group and the customized group comprise a reverse star schema meta model".

The Examiner considers these limitations to only recite what is expected to happen, a desired result, or an intended use. The MPEP discusses a type of limitation in reference to "wherein" clauses. MPEP § 2111.04 states:

Claim scope is not limited by claim language that suggests or makes optional but does not require steps to be performed, or by claim language that does not limit a claim to a particular structure. However, examples of claim language, although not

Application/Control Number: 10/001,644 Page 4

Art Unit: 3694

exhaustive, that may raise a question as to the limiting effect of the language in a claim are:

- (A) "adapted to" or "adapted for" clauses;
- (B) "wherein" clauses; and
- (C) "whereby" clauses.

While a "thereby" clause is not enumerated in the list of examples above, the MPEP expressly states that the list is not exhaustive. In the instant case, the "thereby" clause has the same effect as the above phrases, in that the claim is ambiguous as to whether the "sensing device is able to generate the indicating data".

The MPEP also states in 2172.01:

... a claim which fails to interrelated elements as defined by applicant(s) in the specification may be rejected under 35 USC 112, second paragraph, for failure to point out and distinctly claim the invention.

Claim 71 the last claim limitation on page 9 has a similar problem.

Claim 103, page 15, line 11 contains a "wherein" clause. Examples of claim language, although not exhaustive, that may raise a question as to the limiting effect of the language in a claim are:

- (a) "adapted to" or "adapted for" clauses;
- (b) "wherein" clauses; and
- (c) "whereby" clauses.

The court noted (quoting Minton v. Nat'l Ass'n of Securities Dealers, Inc., 336 F.3d 1373, 1381, 67 USPQ 1614, 1620 (Fed. Cir. 2003)) that a "whereby" (in this case

Art Unit: 3694

"wherein") clause in a method claim is not given weight when it simply expresses the intended result of a process step positively recited" ld<

Claims 54-70 are also rejected because they depend from a rejected base claim.

Inquiries

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ella Colbert whose telephone number is 571-272-6741. The examiner can normally be reached on Monday, Tuesday, and Thursday, 5:30AM-3:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Trammell can be reached on 571-272-6712. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
